

Welcome to the Occupation or When Did We Become the 51st State?

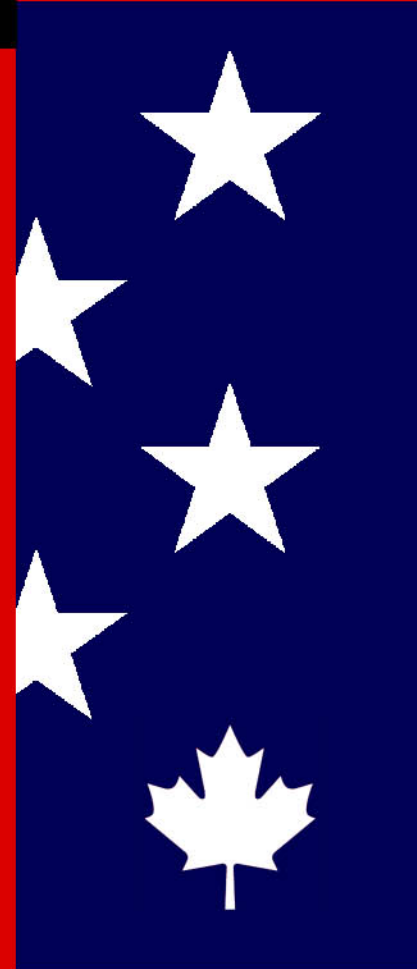

Bursting on the scene in the tradition of Michael Moore, here comes award-winning filmmaker Bryan Skinner with his new feature-length documentary "Welcome to the Occupation or When Did We Become the 51st State?" Combining insight with comedy, this film explores attacks on Canada's economic, political and cultural sovereignty by its neighbour to the South. Is the reason Canada and the U.S.A. share the world's longest undefended border because Canada has already become the 51st State?
